

# DISCOVER YOUR UNSTOPPABLE NATURE

## DISCOVERY™

Eco-efficient Paper

IT ALL STARTS WITH  
A UNIQUE NATURAL MATERIAL

Only the authentic *Eucalyptus globulus* fibres  
can guarantee nonstop performance and  
unbeatable eco-efficiency in a light weight paper.

### NONSTOP PERFORMANCE

Our fibres are the secret to create a lightweight paper with greater  
bulkiness, thickness and stiffness than most standard 80g.m<sup>2</sup> papers.

#### OPACITY

**The more opaque the  
paper the more it is  
suitable for duplex  
printing**

Printing information, graphs  
and images will be extremely  
legible on both sides.

#### WHITENESS

**The whiter the paper,  
the better are  
printing results**

Higher whiteness and  
brightness allows more  
vivid color and high  
definition contrasts.

#### PRINTING QUALITY

#### THICKNESS/STIFFNESS

**Thicker and stiffer  
paper translates into  
higher runnability,  
without paper jams**

A more dense and rigid  
paper is less likely to curl  
and jam.

#### SMOOTHNESS

**Higher smoothness  
improves toner  
adhesion and ink  
absorption**

Superior tactile sensation  
and optimizes ink/toner  
consumption, extending  
office equipment lifetime.

#### PERFORMANCE

EU Ecolabel:

# DISCOVERY<sup>TM</sup>

Eco-efficient Paper

Getting ahead in life and in business is all about efficiency and sustainability, by doing more with less.

## NONSTOP ECO-EFFICIENCY

### LESS FOR MORE

**Better quality with less weight and fewer resources.**

Discovery papers are lighter and greener. They use less wood than normal 80g.m<sup>2</sup> for the same amount of paper and avoid waste.

### LESS RESOURCES

### LOWER COSTS

**5% FEWER**  
trucks on the road

**LOWER**  
weight boxes

### LESS WASTE

### DO YOU KNOW OUR RENEWABLE FORESTS ARE 365 DAYS CAPTURING CO<sub>2</sub>?

The forests managed by NVG account for a carbon storage equivalent to the emissions generated by 1,2 million cars driving around the world

5 reams of Discovery store an amount of CO<sub>2</sub> equivalent to the emissions of a passenger on a flight Paris-London
